TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, JQuery, Bootstrap, MUI

Backend: MySQL, MongoDB, Express, GraphQL, ReactJs, Node, Webpack, Google Maps

PROJECTS

YardGems | React | <https://github.com/Rolyat512/YardGems>

- YardGems is a free, easy to use garage sale app that helps create and locate garage sales around you!
- YardGems is a react driven application that utilizes google maps and graphql in order to post, search, and save garage sale listings near you. During the development of YardGems, I worked alongside my colleagues to help enable the google maps functionality as well as styling of the website.

MealMappr | MySQL | <https://github.com/Rolyat512/MealMappr>

- Meal Mappr is a meal planning website where you can interact with a calendar and create your very own meal plan from scratch.
- MealMappr's main focus is interacting with the full calendar library as well as talking with the MySQL database to help organize and create your own customized meal plans. During the development of MealMappr, I handled all of the MySQL database functionality as well as implementing the full calendar library.

EDUCATION

University of San Antonio

Coding Bootcamp: FullStack

Jan. 2023 - July 2023

Fort Lewis University

Bachelor of Economics: 3.93 gpa

Sept. 2015-May 2017

Waseda University Tokyo
